

Regarding our nomination process there is no changes, therefore I can confirm you the following:

The nomination and application deadlines for the Autumn Semester 2022 is 15th of April. We will need the complete application document package in .pdf format. It should include the Official Transcript of grades from your university, the Study Plan and the personal datas of the student. The Study Plan should contain what courses the student would like to study and why (the knowledge will be of usage at home university at what field and why, etc.) Format is 1-1,5 A/4 page in Word. We also need a digital copy of the passport. I've attached the Personal Datas document below just as our latest fact sheet.

Regarding our English language requirements I would like to inform you that generally the upper-intermediate level (CEFR B2) is expected by ELTE. Beyond that the faculties or the lecturers may have special rules (in some cases they can require C2). ELTE cannot confirm neither the TOEFL iBT nor the IELTS score correspondance to C2 level. Please kindly check them and all the other international language exams' correspondance that you accept from your students at the official pages. It's your own authority to correspond them. We accept it if your university does it as an advanced/proficiency exam.

Our University intends to start the Autumn Semester 2022 with personal attendance.
